Skills Summary

- **Front-End Web Development:** HTML5, CSS3, Bootstrap, Git Basics
- **Back-End Web Development:** JavaScript, Node.js, Express.js, MongoDB
- **Full-Stack Web Development:** React.js, DOM Manipulation, API Integration with Fetch

Work Experience

First Asia Labor Service Cooperative /People Support Labor Service Cooperative - Fortune Packaging Corporation 2023-2023

Electronics Engineer

- Successfully performed regular maintenance tasks resulting in high system uptime and reduced risk of critical failures.
- Implemented efficient troubleshooting procedures that reduced downtime leading to increased productivity.
- Efficiently record data in an organized manner resulting in faster retrieval of data.

Education

Zuitt Web Developer Program (MERN Stack)

Main Course Package

May 3 2023 - July 20, 2023

Central Colleges of the Philippines

Bachelor of Science in Electronics and Communication Engineering

2019

Project Experience

- **Front-End Capstone:** Designed and developed a static responsive website using HTML5, CSS3, Bootstrap, and Git for version control, hosted on Github.
- **Back-End Capstone:** Created an E-Commerce API using JavaScript, Node.js, MongoDB and Express.js, hosted on Render.
- **Full-Stack Capstone:** Developed a React-based web application with API Integration utilizing modern JavaScript techniques and DOM Manipulation, hosted on Vercel.

Additional Skills

- **Equipment Maintenance** - ability to perform routine maintenance tasks on machines to ensure their optimal functioning.
- **Troubleshooting** - proficiency in identifying and diagnosing issues and effectively resolving technical problems.
- **Data Encoding** - skill in accurately and efficiently encoding data into computer systems.
- **Critical Thinking** - ability to analyze and assess technical issues to identify the root causes and determine effective solutions
